- Source code: <https://github.com/robiulhr/Mapty2.0>

Baby Query (03/2023 - 04/2023)

- Baby Query is a custom implementation of the popular JavaScript library jQuery.
- Simple and minimal: Just call the function with selector \$() you are ready to do changes.
- Chainable methods: `$("div").css("width", "200px").text("Hello world")`
- Better performance: Runs much faster and more efficiently.
