Computer Operator

👤 Profile

Hi,
I am a Web designer and junior label front End web developer. I have over two years of experience working as a web designer and front-end developer. I am an expert at HTML, CSS, javascript, jquery, bootstrap, WordPress, react js, Material-UI, git(version controlling), and some other technologies. also have a basic understanding of MERN Stack(React js, Nodejs, Express js, Mongo DB) , Rest APIs, c language and java. I did many projects with 100% of my client's satisfaction. Also, I am experienced in making extensions for browsers like Chrome, Mozilla, and Brave.

💼 Projects and Employment History

Full site Design and Development, Remote job
Mar, 2022 - Apr, 2022

I have worked on this project as a web designer. I have redesigned the whole site and added the e-commerce functionality using Snipcart. This site is now fully responsive and cross-browser compatible.
